## PROFILE SUMMARY

With over 10 years of experience in Software Functional Testing, I am currently serving as a **Senior Member Technical** at **Broadridge Financial Solutions**. I excel in SAFe, Agile, and Waterfall methodologies and am seeking opportunities in Software and Automation Testing (UI and API) with expertise in Selenium WebDriver, Serenity BDD, Cucumber, and UFT/QTP. Proficient in Java, Python, and Excel VBA Macro for tool development. Skilled in System Testing, Regression Testing, Functional Testing, and Test Design/Execution using HP ALM, JIRA, and Rally. Dedicated to on-time delivery, I am a hardworking achiever and enthusiastic team player committed to excellence.

## WORK EXPERIENCE

### Senior Member Technical

Broadridge Financial Solutions  
May 2021 – Present

- I am responsible for automating application testing, focusing on in-sprint automation while maintaining an extensive regression suite.
- I regularly review and optimize team members' automation scripts before integrating them into Git. Additionally,
- I contribute to developing innovative, non-conventional automation scripts using VBA and SQL.
- With expertise in a wide range of tools including HP ALM, UFT, Selenium WebDriver, Playwright Java/JavaScript, Serenity BDD, Cucumber, Hexawise, MS-SQL Server, MS Excel VBA, Perfecto Lab, JIRA, Rally, and Toad for SQL, I lead end-to-end automation test planning. This includes authoring test documents, managing project tasks, and ensuring the effective execution of testing activities within the organization.
- With strong communication and interpersonal skills, I excel in resolving complex software issues and providing detailed QA Test Plan and Test Design walkthroughs.
- Well-versed in both Agile and Waterfall methodologies.
- I frequently develop custom automation tools in Java, Python, and VB Script/VBA for specialized use cases

## CERIFICATION

- Certified SDET Professional
- Selenium Webdriver with PYTHON from Scratch + Frameworks
- Rest API Testing (Automation) from Scratch- Rest Assured Java
- Cypress -Modern Automation Testing from Scratch + Frameworks
- Playwright JS Automation Testing from Scratch with Framework

## EDUCATION

- **B.Tech | EEE (2014)**
  - Trident Academy of Technology, Bhubaneswar
  - CGPA - 7.35/10
- **12<sup>th</sup> Science (2010)**
  - CHSC Odisha
  - Marks - 63.16%
- **10<sup>th</sup> (2008)**
  - BSE Odisha
  - Marks - 81.75%

## Associate

Cognizant Technology Solutions India Ltd  
May 2015 - Apr 2021

- Experienced in testing both web-based and Oracle-based applications, including Oracle databases, within the insurance domain as a Functional Tester.
- Independently manage enhancements from requirement analysis to production support, covering test planning/strategy, test design/scripting, automation, System Integration Testing (SIT), regression testing (manual and automated), and User Acceptance Testing (UAT) support for data generation.
- Proficient in debugging and fixing automation scripts for Oracle applications using UFT.
- Strong knowledge of Core Java with hands-on experience in developing automation scripts for web applications using Selenium.
- Skilled in using MS Excel VBA/Macros and SQL for automation tasks and data manipulation.

## PROJECT

### • Assets Management – 2 Yr 2 Months

Assets Management is used to provide investment advice and help in managing assets of the investor. It is a single point solution for Fiduciary Solutions for Advisors, Asset Managers and Institutions by visualizing and provide customized reports for Asset/Investment health.
